**Investment objective**

The aim of the Fund is to provide a secure and stable income return primarily through acquiring social real estate. It is intended that the assets targeted for acquisition by the Fund will offer a consistent income stream with capital growth prospects.

**Fund commentary**

The Fund was launched on 18 May 2017.

The current portfolio is expected to deliver an income return between 4.5% - 5% p.a.

The Fund has generated a total return for the ten month period from 18 May 2017 to 31 March 2018 of 6.35 % (based on the Class A Gross Accumulation Shares). This includes an income return of 3.87%, of which 1.29% which was distributed as income in November 2017.

The Fund's next income distribution for the six months to 31 March 2018, will be paid at the end of May 2018.

As at 31 March 2018 the Fund's property portfolio comprised of nine long income properties within the social real estate sector, valued at £16.8 million.

Dealing in the shares of the Fund is available on a weekly basis each Thursday (or if not a business day, the next business day) and the last business day of the month.

All properties have income growth and inflation mitigation through inflation linked upwards only regular rent reviews.

**Investor rationale**

- Investment generates long-dated, unlevered, inflation correlated income streams
- Provides diversification from commercial real estate to provide less cyclical expected returns
- Enables investors to provide a positive impact to society whilst generating an expected long-term, attractive risk adjusted return

**Social real estate rationale**

- Significant reductions in the availability of government grants for social real estate has created a need for long-term capital from the private sector
- Demographics – including an ageing population and changing personal finances in the UK is increasing end user demand across different sectors
- Financial benefits – Sectors such as assisted and supported living is more affordable for local authorities than full residential care
