Fund managers

Nigel Ashfield is the Managing Director at TIME and has over 20 years' experience in fund management and finance. Nigel has responsibility for over £1 billion of

tax efficient investments and is also fund manager of TIME:Freehold, a £220 million ground rent fund with a 29 year track record of positive returns, and TIME:Commercial Long Income.

Roger Skeldon has over 15 years' experience in fund management, finance and commercial property, primarily focused on long income property and

the deployment of capital into sectors such as logistics. He has been at TIME Investments for over 10 years and is Fund Manager for TIME:Commercial Long Income, TIME:Social Long Income and TIME:Property Long Income and Growth.

Fund aim

The aim of the Fund is to offer shareholders a consistent income stream with some capital growth prospects through acquiring property with long leases including commercial freehold ground rents and commercial freehold property which benefit from long leases.

Fund characteristics

Income consistency

Our properties aim to generate consistent income. This is achieved through long, high quality tenancies, the financial strength of the tenants, and/or an over-collateralised ground rent structure.

Inflation linked

Around 94% of rent reviews are linked to inflation or have a fixed uplift, rather than being subject to open-market negotiation. The majority of the rent reviews are upwards only.

Diversified portfolio

The portfolio is made up of properties around the UK, across many different sectors of the economy.

Lower volatility

The Weighted Average Lease Term (WALT) is more than five times greater than many traditional UK commercial property funds. This removes significant uncertainty in valuation around the potential loss of tenants.

Track record

The TIME group has a long track record in long income property and manages over £3 billion of UK long income property assets.

Capital growth

The fund may benefit from capital value increases in its property portfolio. This can happen in several ways, such as rental growth, lease extensions and yield shift.

Featured asset - DPD Delivery Unit

TIME:Commercial Long Income's construction of a delivery unit located in Tipton, Midlands was completed in September 2019. The asset was purchased for £14.7 million and let on a 25 year lease to DPD Group UK starting from the completion date of 23 September 2019. The rent review of the property is five yearly with a Net Initial Yield of 4.62%.

Fund manager commentary

Fund manager commentary

The Fund has continued to deliver a consistent income return from its portfolio plus a positive capital return. This is a result of the property portfolio seeing positive performance and valuation appreciation across all the sectors where the Fund has exposure, including those sectors that faced high levels of operational pressure during the outbreak of COVID and through 2020, such as the hotel sector.

With increased volatility and uncertainty in traditional asset classes, alternative sectors such as real estate can lower that volatility and provide greater diversification.

The Fund has no vacant properties and operational stability has returned to most sectors. Some tenants were allowed to defer their rent in periods during COVID with repayments expected through 2022.

Fund performance

The performance of the Fund has been steadily improving since August 2020 and this has continued more recently with a positive return of 0.71% during the month of March 2022. For the 12 month period ended 31 March 2022 the Fund has produced a positive total return of 6.07%, comprising an income return of 3.52% and a capital gain of 2.55%.

The property portfolio of the Fund will next be valued by the independent valuer at the end of April 2022.

Outlook

The Fund increased its exposure to logistics during 2020 which is proving beneficial at this time, as the sector is seeing positive valuation movements supported by the increased occupier demand and supportive dynamics in the sector. We expect this positive capital performance in logistics to continue in the medium term but keep the portfolio under constant review to assess current and future performance of the different sectors and whether any portfolio changes could be required to benefit ongoing and future performance.

We are seeing similar supportive dynamics across many of the sectors within the portfolio, which combined with the rental growth profile of the portfolio, signals an encouraging outlook for the Fund in the medium and long term. The Fund has never had exposure to sectors such as high street retail and shopping centres which are going through a structural change.

The WALT of the portfolio is 46 years which gives significantly greater visibility of income than in traditional commercial property. This is achieved through the specific features of long income, which includes the visibility of income through the high Weighted Average Unexpired Lease Term, married with tenant quality, sector sustainability and quality of the real estate.

Increased levels of inflation remain a concern for investors, especially in a period where rental growth in many sectors of traditional commercial property remains uncertain but one of the key features of long income is the comfort provided by structured rent reviews. Within the portfolio, around 94% of the rent reviews are linked to an inflation index or have a fixed percentage growth. It is worth noting that the portfolio currently has no voids.

The Fund and its property portfolio are well-positioned, and we anticipate the positive performance in property values to continue, with an annualised income return of around 3.5%, with that income return expected to grow in 2022. Please visit our website for all updates and information as it becomes available.

Latest fund updates

FCA consultation on open-ended property fund structures

The Financial Conduct Authority (FCA) has proposed a consultation on open-ended property funds. The FCA has proposed that longer redemption periods would benefit investors. On 7 May 2021, the FCA released a feedback statement on their consultation. If the FCA does proceed with applying mandatory notice periods for authorised open-ended property funds, which is, at this time, not certain, the FCA has stated that the proposed changes for authorised open-ended property funds would not be implemented before late-2023 at the earliest.

HMRC consultation on ISA investment in open-ended property funds

HMRC has recognised that the FCA's consultation proposals may run contrary to ISA legislation, which requires ISA investors to be able to access their funds or transfer them to another ISA within 30 days of making an instruction to their ISA manager. Under current legislation, such property funds would no longer be ISA eligible investments. In order to mitigate the impact on ISA holders if the FCA's consultation proposals are introduced, HMRC is considering whether to allow existing ISA investments in open-ended property funds to remain within the ISA, while potentially prohibiting 'new' ISA investments in such funds. The HMRC consultation closed on 13 December 2020, with its findings expected to be published this year.

Important notice

This is a financial promotion as set out in the Financial Services and Markets Act 2000 (FSMA). This document is issued in the UK by TIME Investments, a trading name of Alpha Real Property Investments Advisers LLP, which is the Investment Manager of the Fund with delegated authority from Alpha Real Capital LLP, the authorised corporate director of the Fund. Both TIME Investments and Alpha Real Capital LLP are authorised and regulated by the Financial Conduct Authority. Please note your capital is at risk and there is no guarantee that the Fund's investment objective will be achieved. The value of investments and the income from them may fall as well as rise as a result of fluctuations in market, currency or other factors and investors may not get back the original amount invested. Any past performance data cited is not a reliable indicator of future results. TIME Investments may source data from third party data providers but accepts no responsibility or liability for the accuracy of data. This document does not constitute investment advice and potential investors are recommended to seek professional advice before investing. Applications for shares in the Fund can only be made via an Application Form and after reviewing the Key Investor Information Document ("KIID") and the Prospectus and investors should carefully read the risk warnings contained within. All documentation is available on request. Specific Fund Information: The underlying investments in the Fund consist wholly or substantially of real property. The value of the real property concerned will generally be a matter of valuer's opinion rather than fact. The Fund invests in assets that may at times be hard to sell. This means that there may be occasions when you experience a delay or receive less than you might otherwise expect when selling your investment. For more information on risks, see the Fund's prospectus and KIID. Fund Status: The Fund is a sub-fund of ARC TIME:Funds II and is a NonUCITS Retail Scheme within the meaning of the rules contained in the Collective Investment Schemes Sourcebook (the "FCA Regulations") published by the FCA as part of their Handbook of rules made under the FSMA. Issued: April 2022.
