TIME:Social Long Income Long Income Funds

Data as at: **31 March 2021**

Published: **April 2021**

TIME:Social Long Income has continued to maintain an impressive performance against the IA UK Direct Property sector, outperforming all other funds in the sector over the three year period and third over the one year period to the end of March 2021.

Lifting of suspension

TIME:Social Long Income lifted its suspension in dealing and is available for subscriptions and redemptions on a daily basis.

Fund aim

The aim of the Fund is to offer shareholders a consistent income stream with some capital growth prospects through acquiring social infrastructure assets.

Fund characteristics

Income consistency

Consistent income comes from owning properties with longer leases, typically from 15 to 30 years. This consistency is achieved through long tenancies, the financial strength of tenants and/or Government or local authority support.

Income with inflation protection

The majority of rent reviews are either inflation linked or have a fixed uplift, rather than being subject to an open market negotiation. The majority of the rent reviews are upwards only.

Track record in long income funds

The TIME group has a long track record in long income property and manages over £3 billion of UK long income property assets.

Demographics

The under supply and increasing demand for social infrastructure has created a need for long-term capital from the private sector.

Consistent income

The fund currently seeks a consistent income by investing in social infrastructure.

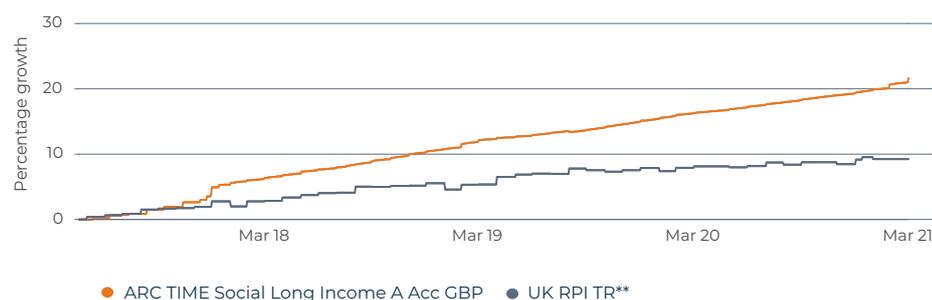

Positive social impact

The fund allows investors to have a positive impact on society, while generating a long-term, attractive, risk-adjusted return.

Featured asset - Barchester Healthcare

TIME:Social Long Income completed on the Fund's first elderly care home in February 2021. The property is purpose-built and is let to Barchester Healthcare on a 35-year term.

The lease contains annual rent reviews linked to RPI and is designed specifically to support people living with dementia.

Fund manager commentary

Fund Commentary

TIME:Social Long Income has continued to maintain an impressive performance against the IA UK Direct Property sector, outperforming all other funds in the sector over the three year period and third over the one year period to the end of March 2021.

The value of the Fund's shares increased by 0.84% for the month of March 2021. A substantial portion of this month's performance came as a result of a new 15 year lease being completed with the tenant at 90 Harley Street. The new lease also sees the rent review clause change from open market value basis to being linked to RPI.

The Fund has maintained positive monthly returns throughout the past year and the COVID-19 period, with the resilience of the portfolio and social infrastructure sector being demonstrated in these difficult times. The Fund's value has increased by approximately 4.69% since the first lockdown. With the ongoing COVID-19 pandemic and the country experiencing another lockdown, there remains significant uncertainty which is affecting the economic recovery but given the Fund's strategy and nature of the assets in which it is invested we believe the Fund is well placed to continue to deliver positive performance.

We had very positive discussions with existing and prospective investors regarding the continuing performance of the Fund and the robust attributes of the social infrastructure asset class.

The Fund has received net subscriptions, and cash levels have increased to c15% of its prevailing net assets.

The property portfolio of the Fund will next be valued by the independent valuer as at 30 April 2021.

The Fund has collected almost 100% of the rent due during the COVID-19 period and this has continued in the most recent quarter. The Fund has agreed for some tenants to pay their rents monthly rather than quarterly on a temporary basis and we remain in communication with all our tenants, in particular with those most affected. Operational pressure remains and some tenants may still require support, but by assisting tenants through this difficult period, the Fund is focused on the value of its property portfolio in the long term.

The Fund's income for the quarter to 31 March 2021 of 1.08% (based on the Class A Gross Accumulation shares) will be paid at the end of June 2021. The Fund's performance over the year to 31 March 2021 has been 4.62% (based on the Class A Gross Accumulation shares), comprising an income return of 4.41% and a capital gain of 0.21%.

FCA consultation on open-ended property fund structures

The Financial Conduct Authority (FCA) has proposed a consultation on open-ended property funds <https://www.fca.org.uk/news/pressreleases/fca-consults-newrules-improveopen-endedpropertyfundstructures>. The FCA has proposed that longer redemption periods would benefit investors. We submitted our response to the FCA as part of this consultation process, which closed on 3 November 2020. Following the consultation, the FCA intends to publish its findings this year.

HMRC consultation on ISA investment in open-ended property funds

HMRC has recognised that the FCA's consultation proposals may run contrary to ISA legislation, which requires ISA investors to be able to access their funds or transfer them to another ISA within 30 days of making an instruction to their ISA manager. Under current legislation such property funds would no longer be ISA eligible investments.

In order to mitigate the impact on ISA holders if the FCA's consultation proposals are introduced, HMRC is considering whether to allow existing ISA investments in open-ended property funds to remain within the ISA, while potentially prohibiting 'new' ISA investments in such funds.

The HMRC consultation closed on 13 December 2020, with its findings expected to be published this year.

About TIME

At TIME Investments we have created a platform for predictability and consistency to help our clients rest easy. We provide carefully considered investments that seek to deliver predictable returns in an unpredictable world. The group manages over £4 billion of property, infrastructure, and renewables investments in both private and public vehicles. TIME Investments has a 20+ years track record in fund management with 42 investment specialists within the renewables, lending and property teams.

Outlook

We are pleased to report that the Fund has continued to outperform its traditional commercial property OEIC peers. Since the Fund was launched it has been managed with the focus on low capital volatility and income security through investing in the social infrastructure sector. This along with the specific features of long income (including the high Weighted Average Lease Term married with tenant quality and sector sustainability) are the main reasons for this outperformance.

Whilst uncertainty remains, the Fund and its property portfolio is well positioned and we anticipate the positive performance in property values to continue, with a total return in excess of 4%.
