

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

ARC TIME Commercial Long Income Feeder Trust, a sub-fund of ARC TIME:Trusts II

Class U Net Accumulation

ISIN GB00BJJPVG18

SEDOL BJJPVG1

Class V Net Income

ISIN GB00BJJPVH25

SEDOL BJJPVH2

ARC TIME Commercial Long Income Feeder Trust ('the Trust') is managed by Alpha Real Capital LLP as Authorised Fund Manager ('AFM').

Objective and Investment Policy

The Trust is the feeder fund to the ARC TIME Commercial Long Income PAIF (the "Master Fund"), a property authorised investment fund (PAIF).

The objective of the Master Fund is to carry on Property Investment Business and to manage cash raised for investment in the Property Investment Business. The aim of the Master Fund is to offer Shareholders a consistent income stream with some capital growth prospects through acquiring property with long leases including commercial freehold ground rents and commercial freehold property which benefit from long leases.

Unitholders capital is at risk and there is no guarantee that the objective will be achieved on an annual basis or over any other period of time.

The Master Fund may also invest in collective investment schemes, cash and similar cash-like investments, as well as money market instruments, debt securities and equities (whether or not listed on a stock exchange).

Derivatives may be used in the Master Fund for efficient portfolio management.

The Trust's Objective and Investment Policy

The objective of the Trust is to provide income and capital growth over the longer term in accordance with the Master Fund.

All or substantially all of the Trust will be invested in the shares of the Master Fund (a sub-fund of ARC TIME:Funds II) and any left over will be held as cash for liquidity purposes.

Other information

We carry out investors' requests to buy, sell, switch, convert or exchange units at 10am any business day.

If we receive a request to buy units after 10am on any business day we will deal with it on the next business day; for redemptions six months' notice is required and the units shall be sold at the next dealing day following that periods expiry.

If you hold income units, income from investments in the Trust is paid out to you quarterly, usually within two months of the quarterly interim accounting dates, being 30 June, 30 September, 31 December and 31 March.

If you hold accumulation units, income from investments in the Trust will be rolled up into the value of your units.

Recommendation: the Trust may not be appropriate for investors who plan to withdraw their money over a short period.

Terms used

"commercial freehold ground rents"	benefit from long dated (typically over 60 years) leases. The rents are paid by a tenant to a freeholder for the use of a property asset for the agreed term
"commercial freehold property which benefit from long leases"	freehold property typically let to commercial tenants at market rent for periods of over 15 years
"collective investment schemes"	schemes where investors' money is pooled to buy investments
"money market instruments"	a type of investment where cash can be deposited for short periods
"derivatives"	contracts whose value is linked to the future price movements of an asset

Risk and reward profile

The following risks apply to investments in the Trust:

- The value of units can go down as well as up and is not guaranteed. You may not get back the full amount invested.
- At times it may be difficult for the Master Fund to make investments/ sell assets to meet investors' requests to buy/sell units. Where this occurs the Trust may experience reduced investment performance for a period or have difficulty paying proceeds to investors who wish to sell units.
- The majority of the Master Fund's investments are commercial freehold ground rents and commercial freehold property which benefit from long leases. Valuations are a matter of an independent valuer's opinion. There is no certainty that the valuation opinions will reflect the sale price of the property and

any differences could affect the value of your investment in the Trust.

- By the nature of direct property and the time and other factors involved in arranging sales and realising the proceeds there from, it should be appreciated that the underlying assets are illiquid assets when compared with other asset classes such as listed equities or bonds. Whilst the Authorised Fund Manager will pursue a cautious liquidity policy, the Trust is intended for investors who can accept the risks associated with making potentially illiquid investments in direct property.
- Dealing in the Master Fund as well as the Trust could be suspended for a period which means you may not be able to buy or sell units for several months or longer.

For full details of the Trust's risks please see Section 26 of the prospectus of ARC TIME:Trusts II, which is available from Alpha Real Capital LLP at 338 Euston Road, London, NW1 3BG.

Charges

The charges you pay are used to pay the costs of running the Trust. However, all charges for the Trust are generally paid by the authorised trust manager to ensure parity of pricing to the Master Fund. Any charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

	Class U Net Acc	Class V Net Inc
Entry charge	0%	0%
Exit charge	5%	5%

This is the maximum that might be taken out of your money before it is invested (Entry charge) or before the proceeds of your investment are paid out (Exit charge).

Charges taken from the Trust over a year

Ongoing Charge	1.42%	1.42%
----------------	-------	-------

Charges taken from the Trust under certain specific conditions

Performance Fee	None
-----------------	------

The entry and exit charges shown are maximum figures. In some cases you might pay less. You can find out actual entry and exit

charges from your financial adviser, distributor or by contacting the AFM.

The ongoing charges figure represents the combined costs of the Trust's and the Master Fund's expenses for the year ended 31 December 2023 for each unit class and this figure may vary from year to year.

The annual report for each financial year will include details of the charges made.

The figure for ongoing charges may not include all professional fees and generally excludes portfolio transaction costs and rental collection charges. However, such costs may be included where the Trust pays them to one of its service providers, or to the Master Fund as an entry/exit charge for buying/selling shares. The ongoing charge figure is an estimate only, based on fees that can be reliably estimated. Property related expenses are excluded from the ongoing charge.

For more information about charges please see Section 33 of the prospectus of ARC TIME:Trusts II, which is available from the Authorised Fund Manager at Alpha Real Capital LLP, 338 Euston Road, London, NW1 3BG or online at time-investments.com/clip and alpharealcapital.com.

Past performance

The Trust was authorised by the Financial Conduct Authority on 13 July 2018 and launched on 1 April 2019 following the approval by unitholders of the exchange offer to accept units in the Trust in exchange for units held in the predecessor trust Commercial Freehold Feeder Trust.

The chart shows the past performance for the three years to 31 December 2020 of Class V Net Income and takes into account all charges except entry and exit charges. Since 8 June 2021 there

have been no units issued in Class V Net Income and as a result there is insufficient data to be able to give a reliable indication of past performance for 2021, 2023 and 2023 for Class V Net Income.

The chart shows the total return on a calendar year basis.

There is no performance data for the calendar years 2016 and 2017 as there were no units created in both Class U Net Accumulation and Class V Net Income.

There have been no units created in Class U Net Accumulation since the launch of the Trust on 1 April 2019. As a result there is insufficient data to be able to give a reliable indication of past performance.

The performance prior to 1 April 2019 in the chart is that of the predecessor trust Commercial Freehold Feeder Trust.

Past performance is calculated in pounds sterling. Past performance is not a reliable indicator of future performance.

Practical information

Trustee

The Trust's Trustee is NatWest Trustee and Depositary Services Limited.
