Important information

Important Notice: Issued by Alpha Real Capital LLP ('Alpha'). Alpha is authorised and regulated by the Financial Conduct Authority. Alpha is the Authorised Corporate Director of Defensive Income Securities Fund. Please note there is no guarantee that the Fund's investment objective will be achieved. The value of investments and the income from them may fall as well as rise as a result of fluctuations in market, currency or other factors and investors may not get back the original amount invested. Any past performance data cited is not a reliable indicator of future results. TIME may source data from third party data providers but accepts no responsibility or liability for the accuracy of data. This document does not constitute investment advice and potential investors are recommended to seek professional advice before investing.

Applications for shares in the Fund can only be made via an Application Form and after reviewing the Key Investor Information Document ('KIID') and Prospectus and investors should carefully read the risk warnings contained within. All documentation is available on request. Alpha, the Authorised Corporate Director of TIME:Defensive Income Securities Fund is the person responsible for the information contained in the KIID and Prospectus and this Application Form. Specific Fund Information: The underlying investments in the Fund consist of listed securities; the value is therefore volatile and it is possible that an investor may not get back the sum invested. Equity prices and returns from investing in equity markets are sensitive to various factors including but not limited to expectations of future dividends and profits, economic growth, exchange rates, interest rates and inflation. The value of any investment in equity markets is therefore volatile and it is possible, even when an investment is held for a long time, that an investor may not get back the sum invested. The Fund's share price may be volatile due to movements in the prices of the underlying equity and fixed interest security holdings. Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital. The value of fixed interest security will fall in the event of the default or reduced credit rating of the issuer. Generally, the higher the level of income (yield) receivable, the higher the perceived credit risk of the issuer. High yield bonds with lower credit ratings (also known as sub-investment grade bonds) are potentially more risky (higher credit risk) than investment grade bonds. Fund Status: TIME:Defensive Income Securities Fund is a Non-UCITS Retail Scheme within the meaning of the Financial Services and Markets Act 2000 ('FSMA'). February 2019.
