ARC TIME Property Long Income & Growth PAIF (the "Fund") is managed by Alpha Real Capital LLP as Authorised Corporate Director ("ACD").

Objective and Investment Policy

It is intended that the Fund will be a Property Authorised Investment Fund at all times, and as such, its investment objective is to carry on Property Investment Business and to manage cash raised for investment in the Property Investment Business.

The aim of the Fund is to offer Shareholders an income return with some capital growth.

Shareholders capital is at risk and there is no guarantee that the objective will be achieved on an annual basis or over any other period of time.

It is intended for around 70% of the portfolio to be invested in direct UK freehold property (which benefit from long leases) and listed UK REITs.

The Fund may also invest in:

- other real asset backed listed UK equities;
- non-UK securities listed on eligible securities markets;
- collective investment schemes up to a limit of 15% of the value of this Fund;
- cash and similar cash-like investments, as well as money market instruments; and
- investment grade corporate debt securities.

Terms used

"freehold property which benefit from long leases"	freehold property typically let to commercial tenants at market rent for periods of over 15 years
"collective investment schemes"	schemes where investors' money is pooled to buy investments
"money market instruments"	a type of investment where cash can be deposited for short periods

Risk and reward profile

The following risks apply to investments in the Fund:

- The value of shares can go down as well as up and is not guaranteed. You may not get back the full amount invested.
- The Fund is expected to invest in property. The UK legal process for selling commercial freehold property which benefit from long leases takes a considerable length of time. Therefore at times it may be difficult to make investments/sell assets to meet investors' requests to buy/sell shares in the Fund over short time periods.
- By the nature of direct property and the time and other factors involved in arranging sales and realising the proceeds there from, it should be appreciated that the underlying assets are illiquid assets when compared with other asset classes such as listed equities or bonds. Whilst the ACD will pursue a cautious liquidity policy, this Fund is intended for investors who can accept the risks associated with making potentially illiquid investments in direct property.
- Equity prices and returns from investing in equity markets are sensitive to various factors including but not limited to expectations of future dividends, profits, economic growth, exchange rates, interest rates and inflation.
- Dealing in the Fund could be suspended for a period which means you may not be able to buy or sell shares for several months or longer.

For full details of risks please see the Fund's prospectus, which is available from Alpha Real Capital LLP at 338 Euston Road, London, NW1 3BG or can be downloaded online from: time-investments.com/plig and alpharealcapital.com.
