Objective and Investment Policy

The Fund is a property authorised investment fund (PAIF) and it is intended that it will remain as a PAIF at all times.

The objective of the Fund is to provide a secure and stable investment return of income with some capital growth, primarily through acquiring social real estate. It is intended that the assets targeted for acquisition by the Fund will offer a consistent income stream with capital growth prospects.

There is no guarantee that the Fund will achieve its investment target in each or any year and you may get back less than you invested initially.

The Fund may also invest in:

- collective investment schemes up to a limit of 15% of the value of this Fund;
- cash and similar cash-like investments, as well as money market instruments;
- debt securities; and
- equities (whether or not listed on a stock exchange)

The Fund may use derivatives for investment purposes or efficient portfolio management.

Terms used

“collective investment schemes”	schemes where investors’ money is pooled to buy investments
“derivatives”	contracts whose value is linked to the future price movements of an asset
“social real estate”	freehold or long-term leasehold property assets or other infrastructure assets which are typically let on long-term leases (with initial leasehold terms in excess of 15 years), to providers of social services
“money market instruments”	a type of investment where cash can be deposited for short periods

Risk and reward profile

The following risks apply to investments in the Fund:

- The value of shares can go down as well as up and is not guaranteed. You may not get back the full amount invested.
- The UK legal process for selling social real estate may take a considerable length of time. Therefore at times it may be difficult to make investments/sell assets to meet investors’ requests to buy/sell shares in the Fund over short time periods.
- By the nature of direct property and the time and other factors involved in arranging sales and realising the proceeds there from, it should be appreciated that the underlying assets are primarily relatively illiquid assets when compared with other asset classes such as listed equities or bonds. Whilst the ACD will pursue a cautious liquidity policy, this Fund is intended for investors who can accept the risks associated with making potentially illiquid investments in direct property.

- The majority of the Fund’s investments shall be social real estate. Valuations are a matter of an independent valuer’s opinion. There is no certainty that these opinions will reflect the sale price of the property and any differences could affect the value of your investment in the Fund.
- Dealing in the Fund could be suspended for a period which means you may not be able to buy or sell shares for several months or longer.

For full details of risks please see the Fund’s prospectus, which is available from Alpha Real Capital LLP at 338 Euston Road, London, NW1 3BG or can be downloaded online from time-investments.com/document-library and alpharealcapital.com.

Charges

The charges you pay are used to pay the costs of running the Fund. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest		
	Class C Gross Inc	Class D Net Inc
Entry charge	3%	3%
Exit charge	None	

This is the maximum that might be taken out of your money before it is invested (Entry charge) or before the proceeds of your investment are paid out (Exit charge).

Charges taken from the Fund over a year		
Ongoing Charge	1.54%	1.54%

Charges taken from the Fund under certain specific conditions	
Performance Fee	20% above target (being a total return of 8% over a 12 month period to 31 March)

The entry and exit charges shown are maximum figures, as applicable. In some cases you may pay less. You can find out actual entry and exit charges from your financial adviser, distributor or by contacting the ACD.

The ongoing charges figure is based on the Fund's expenses for the year ending 31 December 2018 for each share class and this figure may vary from year to year.

The annual report for each financial year will include details of the charges made.

The figure for ongoing charges may not include all professional fees and generally excludes portfolio transaction costs and rental collection charges. However, such costs may be included where the Fund pays them to one of its service providers, or to another fund as an entry/exit charge for buying/selling units. The ongoing charge figure is an estimate only, based on fees that can be reliably estimated. Property related expenses are excluded from the ongoing charge.

For more information about charges, including information on performance fees and how they are calculated, please see Section 38 of the Fund's prospectus, which is available from the ACD at Alpha Real Capital LLP, 338 Euston Road, London, NW1 3BG or online at time-investments.com/sff and alpharealcapital.com.

Past performance

The Fund was launched on 18 May 2017. The chart shows the past performance for the last year (reflecting the period the share class became active) of Class C Gross Income and takes into account all charges except entry and exit charges.

The chart shows performance on a calendar year basis.

Class D Net Income shares have only received investments since July 2018. As a result there is insufficient data to be able to give a reliable indication of past performance.

Past performance is calculated in pounds sterling. Past performance is not a reliable indicator of future performance.
