

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

SOCIAL FREEHOLD FEEDER TRUST, A SUB-FUND OF ARC TIME:FEEDER TRUSTS

Class U Net Accumulation	Class V Net Income
ISIN GB00BZ4TJX33	ISIN GB00BZ4TJY40
SEDOL BZ4TJX3	SEDOL BZ4TJY4

Social Freehold Feeder Trust (“SFFT”) is managed by Alpha Real Capital LLP as Authorised Fund Manager (“AFM”).

Objective and Investment Policy

SFFT is the feeder fund to the Social Freehold Fund (the “Master Fund”), a property authorised investment fund (PAIF).

The objective of the Master Fund is to provide a secure and stable investment return of income with some capital growth, primarily through acquiring social real estate. It is intended that the assets targeted for acquisition by the Master Fund will offer a consistent income stream with capital growth prospects

The Master Fund may also invest in collective investment schemes, cash and similar cash-like investments, as well as money market instruments and equities (whether or not listed on a stock exchange).

Derivatives may be used in the Master Fund for investment purposes or efficient portfolio management.

SFFT’s Objective and Investment Policy

The objective of SFFT is to provide income and capital growth over the longer term in accordance with the Master Fund.

All or substantially all of SFFT will be invested in the shares of the Master Fund (a sub-fund of ARC TIME:Funds) and any left over will be held as cash for liquidity purposes.

Other information

We carry out investors’ requests to buy, sell, switch, convert or exchange units at 10am on every business day.

If we receive a request to buy units after 10am on the business day we will deal with it on the next business day; for redemptions six months’ notice is required and the units shall be sold at the next dealing day following that period’s expiry.

If you hold income units, income from investments in SFFT is paid out to you quarterly, usually within three months of the quarterly interim accounting dates, being 30 June, 30 September, 31 December and 31 March.

If you hold accumulation units, income from investments in SFFT will be rolled up into the value of your units.

Recommendation: SFFT may not be appropriate for investors who plan to withdraw their money over a short period.

Terms used

“collective investment schemes”	schemes where investors’ money is pooled to buy investments
“derivatives”	contracts whose value is linked to the future price movements of an asset
“social real estate”	freehold or long-term leasehold property assets or other infrastructure assets which are typically let on long-term leases (with initial leasehold terms in excess of 15 years), to providers of social services
“money market instruments”	a type of investment where cash can be deposited for short periods

Risk and reward profile

The following risks apply to investments in SFFT:

- The value of units can go down as well as up and is not guaranteed. You may not get back the full amount invested.
- At times it may be difficult for the Master Fund to make investments/sell assets to meet investors’ requests to buy/sell units. Where this occurs SFFT may experience reduced investment performance for a period or have difficulty paying proceeds to investors who wish to sell units.
- The majority of the Master Fund’s investments are social real estate. Valuations are a matter of an independent valuer’s opinion. There is no certainty that the valuation opinions will reflect the sale price of the property and any differences could affect the value of your investment in SFFT.

- By the nature of direct property and the time and other factors involved in arranging sales and realising the proceeds there from, it should be appreciated that the underlying assets are primarily relatively illiquid assets when compared with other asset classes such as listed equities or bonds. Whilst the Authorised Fund Manager will pursue a cautious liquidity policy, SFFT is intended for investors who can accept the risks associated with making potentially illiquid investments in direct property.
- Dealing in the Master Fund as well as SFFT could be suspended for a period which means you may not be able to buy or sell units for several months or longer.

For full details of the SFFT’s risks please see Section 28 of the prospectus of ARC TIME:Feeder Trusts, which is available from Alpha Real Capital LLP at 338 Euston Road, London, NW1 3BG or can be downloaded online from time-investments.com/document-library and alpharealcapital.com.

Charges

The charges you pay are used to pay the costs of running SFFT. However, all charges for the SFFT are generally paid by the authorised trust manager to ensure parity of pricing to the Master Fund. Any charges reduce the potential growth of your investment.

One-off charges taken before or after you invest		
	Class U Net Acc	Class V Net Inc
Entry charge	7%	7%
Exit charge	None	

This is the maximum that might be taken out of your money before it is invested (Entry charge) or before the proceeds of your investment are paid out (Exit charge).

Charges taken from SFFT over a year		
Ongoing Charge	1.54%	1.54%

Charges taken from SFFT under certain specific conditions		
Performance Fee	None	

The entry and exit charges shown are maximum figures. In some cases you might pay less. You can find out actual entry and exit charges from your financial adviser, distributor or by contacting the AFM.

The ongoing charges figure represents the combined costs of SFFT and the Master Fund and is based on the expenses for the year ending 31 December 2018. This figure may vary from year to year.

The annual report for each financial year will include details of the charges made.

The figure for ongoing charges may not include all professional fees and generally excludes portfolio transaction costs and rental collection charges. However, such costs may be included where SFFT pays them to one of its service providers or to the Master Fund as an entry/exit charge for buying/selling shares. The ongoing charge figure is an estimate only, based on fees that can be reliably estimated. Property related expenses are excluded from the ongoing charge.

For more information about charges, please see Section 33 of the prospectus of ARC TIME:Feeder Trusts, which is available from the Authorised Fund Manager at Alpha Real Capital LLP, 338 Euston Road, London, NW1 3BG or online at time-investments.com/sff and alpharealcapital.com.

Past performance

SFFT was launched on 18 May 2017. The chart shows the past performance for the last year plus 8 months in 2017 of Class V Net Income and takes into account all charges except entry and exit charges.

The chart shows performance on a calendar year basis.

Since the launch of the SFFT, there have been no units created in Class U Net Accumulation. As a result there is insufficient data to be able to give a reliable indication of past performance.

Past performance is calculated in pounds sterling. Past performance is not a reliable indicator of future performance.

Practical information

Trustee

SFFT's Trustee is NatWest Trustee and Depositary Services Limited.

Documents

Copies of the prospectus and the latest annual and half-yearly reports for SFFT and the Master Fund are available from Alpha Real Capital LLP at 338 Euston Road, London, NW1 3BG, during normal business hours. Please call client services on 0845 600 1213 for further information.

The report and accounts can be obtained from our website at time-investments.com/sff and alpharealcapital.com. These documents are available in English and free of charge.

Prices of shares and further information:

The latest published prices of units in the Fund are available at time-investments.com/sff.

SFFT is a sub-trust of ARC TIME:Feeder Trusts. There may be other sub-trusts in ARC TIME:Feeder Trusts from time to time and you will be able to switch between them. An entry charge may apply. Details on switching are provided in SFFT's prospectus in Section 15.

The assets of SFFT belong exclusively to it and will not be available to meet the liabilities of any other sub-trust of ARC TIME:Feeder Trusts that may launch after the date of this document.

Tax

UK tax legislation may have an impact on your personal tax position. Please note SFFT has elected for shares in the Master Fund that are subject to withholding tax.
