### Fund manager

**Nigel Ashfield** is the Managing Director at TIME and has over 20 years' experience in fund management and finance. Nigel is the fund manager of

TIME:Freehold and co-fund manager of TIME:Commercial Long Income our £370 million commercial long income property fund.

### Fund aim

The investment objective of the Fund is to acquire freehold ground rents which offer a consistent income stream and capital growth prospects. The primary investment of the Fund will be freehold ground rents from properties in the UK.

### Fund characteristics

#### Income security

Our properties generate consistent, long-term cash flows. This is achieved through long tenancies with an over-collateralised ground-rent structure. The ground rent is usually a fraction of the value of the leasehold property, the lessee or his mortgage provider will almost inevitably make payment to avoid forfeiture proceedings.

#### Lower volatility

The Weighted Average Lease Term (WALT) is more than ten times greater than many traditional UK commercial property funds. This combined with the over-collateralised ground-rent structure removes significant uncertainty in valuation.

#### Consistent rental growth

The majority of rent reviews are linked to inflation or have a fixed uplift, delivering consistent and relatively predictable levels of rental growth.

#### Capital growth

The Fund may benefit from capital value increases in its property portfolio. This can happen in several ways, such as rental growth, lease extensions and the shortening lease transferring the full reversionary value of the underlying property to the landlord.

#### Track record

During a challenging decade for investment, the Fund has protected investors' wealth far more effectively than many other asset classes, with its income stream proving highly secure over the Fund's 28-year history.

#### TIME experience

The TIME group has a long track record in long income property and manages over £3 billion of UK long income property assets. TIME:Freehold taps into the entire breadth of the award-winning TIME Group's investment platform.

## Featured asset - Lockes Wharf, Docklands, London

The property is made up of 437 flats with 977 years remaining on the lease. With views over the Thames to Greenwich Palace and the Royal Naval College, this modern development is convenient for Canary Wharf, with all its amenities and transport links. The property comes with good leisure facilities, including a heated swimming pool, spa, gym and pool tables.

## Fund manager commentary

### Fund commentary

Throughout the period since the initial COVID-19 lockdown, the Fund has continued to deliver a consistent income and some capital growth from its portfolio of over 50,000 ground rents. During this period, the Fund's share price has increased with a total return for the 12 months ended 31 March 2022 of 6.49% including income of 4.57% and a capital gain of 1.92%.

The Fund's income return is expected to deliver around 4% per annum. In the current market, we believe that the Fund can continue to offer reliable income returns and the prospect of an element of capital return.

Royal Assent for the Leasehold Reform Bill was received on 8 February 2022 covering the recommendations for new ground rents. The Fund's independent valuer has advised that the elements covered in the Bill do not have a material impact on valuation.

The Leasehold Reform (Ground Rent) Act 2022 comes into force on 30 June 2022 and puts to an end ground rents for new long residential leasehold properties in England and Wales. The Fund's independent valuer has advised that the elements covered in the Bill do not have a material impact on valuation. The second leasehold reform bill covering the more complex detail affecting existing leases is not expected to be published until the next Parliamentary term 2022/23, at the earliest. We shall continue to monitor and review the Fund's portfolio in light of the Government's residential leasehold market reforms and building safety initiatives. The objective of the ongoing Building Safety Bill is to implement the Government's ambition for long-lasting reform of the building safety system. For more information around our building safety initiatives, please review our [Q&A](#).

### Outlook

Since the Fund was launched it has been managed with downside risk to the fore. Liquidity management has remained robust throughout the last five years of uncertainty caused by the Brexit vote and subsequent volatility in the market.

The Fund currently holds around £39 million of its net assets (17%) in cash and daily tradable assets. The Fund's strategy remains unchanged, and the portfolio is expected to continue to consist predominantly of residential ground rents with additional liquidity provided by investments in, for example alternative long income assets meeting the Fund's investment objective such as commercial ground rents.

The Fund will continue to be managed in accordance with its investment objective and will pay its distributions in the normal manner every six months.

We recommend that investors wishing to subscribe into or redeem from the Fund review our [Q&A](#) before doing so.

## Latest fund updates

### FCA consultation on open-ended property fund structures

The Financial Conduct Authority (FCA) has proposed a consultation on open-ended property funds. The FCA has proposed that longer redemption periods would benefit investors. The FCA also proposed that existing funds like TIME:Freehold, which deal monthly, will not fall under the FCA's proposed new rules and accordingly there should be no change to TIME:Freehold's existing monthly redemption arrangements.

On 7 May 2021, the FCA released a feedback statement on their consultation. If the FCA does proceed with applying mandatory notice periods for authorised open-ended property funds, which is, at this time, not certain, the FCA has stated that the proposed changes for authorised open-ended property funds would not be implemented before late-2023 at the earliest.

### HMRC consultation on ISA investment in open-ended property funds

HMRC has recognised that the FCA's consultation proposals may run contrary to ISA legislation, which requires ISA investors to be able to access their funds or transfer them to another ISA within 30 days of making an instruction to their ISA manager. Under current legislation such property funds would no longer be ISA eligible investments. This would affect TIME:Freehold as monthly dealing would typically not meet this 30 days accessibility requirement.

In order to mitigate the impact on ISA holders if the FCA's consultation proposals are introduced, HMRC is considering whether to allow existing ISA investments in open-ended property funds to remain within the ISA, while potentially prohibiting 'new' ISA investments in such funds.

The HMRC consultation closed on 13 December 2020, with its findings expected to be published this year.
