Fund managers

Roger Skeldon has over 15 years' experience in fund management, finance and commercial property, primarily focused on long income property and the deployment of capital into sectors

such as social infrastructure. He has been at TIME Investments for over 10 years and is Fund Manager for TIME:Commercial Long Income, TIME:Social Long Income and TIME:Property Long Income and Growth.

Stephen Daniels has worked in the business since 2007 and is one of the founding partners of TIME. Stephen is Fund Manager for TIME:UK Infrastructure Income and

TIME:Social Long Income managing over £200 million of investments. In addition, Stephen is also responsible for our TIME:Advance, TIME:CTC, TIME:EIS and TIME:AIM solutions, looking after more than £1 billion of investment. He has over 15 years' experience in finance, fund management and investing in UK Smaller Companies.

Fund aim

The aim of the Fund is to offer shareholders a consistent income stream with some capital growth prospects through acquiring social infrastructure assets.

Fund characteristics

Income consistency

Consistent income comes from owning properties with longer leases, typically from 15 to 30 years. This consistency is achieved through long tenancies, the financial strength of tenants and/or Government or local authority support.

Income with inflation linkage

The majority of rent reviews are either inflation linked or have a fixed uplift, rather than being subject to an open market negotiation. The majority of the rent reviews are upwards only.

Track record in long income funds

The TIME group has a long track record in long income property and manages over £3 billion of UK long income property assets.

Demographics

The under supply and increasing demand for social infrastructure has created a need for long-term capital from the private sector.

Consistent income

The fund currently seeks a consistent income by investing in social infrastructure.

Positive social impact

The fund allows investors to have a positive impact on society, while generating a long-term, attractive, risk-adjusted return.

Featured asset - Bright Horizons

TIME:Social Long Income acquired the freehold of a nursery in Didsbury let to national operator Bright Horizons in May 2022. The asset which is let on a 25 year lease and contains RPI linked rent reviews.

Fund manager commentary

Fund commentary

The property portfolio is seeing capital appreciation which is being driven from various sectors where the Fund has exposure, including its largest exposure in the care home sector. Rental collection remains at around 100% as was seen throughout 2020 and 2021 following the onset of COVID-19.

The property portfolio of the Fund will next be valued by the independent valuer as at 31 July 2022. The Fund has a strong pipeline of new investments, and completed the 25-year lease acquisition of a children's nursery in the North West during May. The asset which is let to a national operator has a long lease containing RPI linked rent reviews.

Expectations of increased interest rates alongside high inflation has put pressure on pricing in many asset classes, with bond yields reflecting these expectations. There are various other factors that influence property yields and values, such as other macroeconomic factors like economic growth, but also factors such as supply and demand, or rental growth which will also be driven by specific sector or property aspects.

TIME:Social Long Income recently passed its 5-year anniversary in May, achieving a 5%+ compounded total return (based on the Class A Gross Accumulation shares), since the Fund launch in May 2017.

Fund performance

The value of the Fund's shares increased by 0.29% for the month of June 2022.

The Fund has maintained positive monthly returns throughout the past year and throughout the COVID-19 period, with the resilience of the portfolio and social infrastructure sector being demonstrated in those difficult periods. Given the Fund's strategy and nature of the assets in which it is invested, we believe the Fund is well placed to continue to deliver long term positive performance.

The Fund continues to receive net subscriptions, and cash levels are currently at c26% of its prevailing net assets. The Fund's income for the quarter to 30 June 2022 of 0.93% (based on the Class A Gross Accumulation shares) will be paid at the end of September 2022. The Fund's performance over the year to 30 June 2022 was 5.38% (based on the Class A Gross Accumulation shares), comprising an income return of 3.85% and a capital gain of 1.53%.

Outlook

Since the Fund was launched it has been managed with the focus on lower capital volatility and income security through investing in the social infrastructure sector. This along with the specific features of long income (including the high Weighted Average Lease Term) married with tenant quality and sector sustainability are the main reasons for this outperformance.

The WALT of the portfolio is 23 years which gives significantly greater visibility of income than in traditional commercial property, and hence the name, long income. With concerns around increased levels of inflation, long income property, where rent reviews are typically linked to an inflation index or contain fixed uplifts, offers investors an attractive option. Within the portfolio, 87% of the rent reviews are linked to an inflation index or have a fixed percentage growth.

Whilst economic uncertainty remains, the Fund and its property portfolio is well positioned and we anticipate the positive performance to continue, with a total return in excess of 4% per annum.

About TIME

TIME Investments is a specialist investment manager focused on delivering long-term investments that seek consistent and attractive risk-adjusted returns. We take a deliberately defensive approach investing in asset-backed and income generating assets, predominantly through infrastructure, real estate and lending. TIME Investments has a long track record in fund management with 30 investment specialists within the renewables, lending and property teams.

Latest fund updates

FCA consultation on open-ended property fund structures

The Financial Conduct Authority (FCA) has proposed a consultation on open-ended property funds. The FCA has proposed that longer redemption periods would benefit investors. On 7 May 2021, the FCA released a feedback statement on their consultation. If the FCA does proceed with applying mandatory notice periods for authorised open-ended property funds, which is, at this time, not certain, the FCA has stated that the proposed changes for authorised open-ended property funds would not be implemented before late-2023 at the earliest.

HMRC consultation on ISA investment in open-ended property funds

HMRC has recognised that the FCA's consultation proposals may run contrary to ISA legislation, which requires ISA investors to be able to access their funds or transfer them to another ISA within 30 days of making an instruction to their ISA manager. Under current legislation, such property funds would no longer be ISA eligible investments. In order to mitigate the impact on ISA holders if the FCA's consultation proposals are introduced, HMRC is considering whether to allow existing ISA investments in open-ended property funds to remain within the ISA, while potentially prohibiting 'new' ISA investments in such funds. The HMRC consultation closed on 13 December 2020, with its findings expected to be published this year.

The Fund provides a wide range of social benefits to those in need

Beds
228 care home beds

Education
Over 400 nursery places for children

Housing
Over 140 supported living or complex care living units

Healthcare
Primary healthcare facilities for over 70,000 patients
