TIME:Social Long Income Long Income Funds

Data as at: **31 October 2021**

Published: **November 2021**

TIME:Social Long Income has continued to maintain an impressive performance against the IA UK Direct Property sector, outperforming all other funds in the sector over the three year period to the end of October 2021.

Fund aim

The aim of the Fund is to offer shareholders a consistent income stream with some capital growth prospects through acquiring social infrastructure assets.

Fund characteristics

Income consistency

Consistent income comes from owning properties with longer leases, typically from 15 to 30 years. This consistency is achieved through long tenancies, the financial strength of tenants and/or Government or local authority support.

Income with inflation protection

The majority of rent reviews are either inflation linked or have a fixed uplift, rather than being subject to an open market negotiation. The majority of the rent reviews are upwards only.

Track record in long income funds

The TIME group has a long track record in long income property and manages over £3 billion of UK long income property assets.

Demographics

The under supply and increasing demand for social infrastructure has created a need for long-term capital from the private sector.

Consistent income

The fund currently seeks a consistent income by investing in social infrastructure.

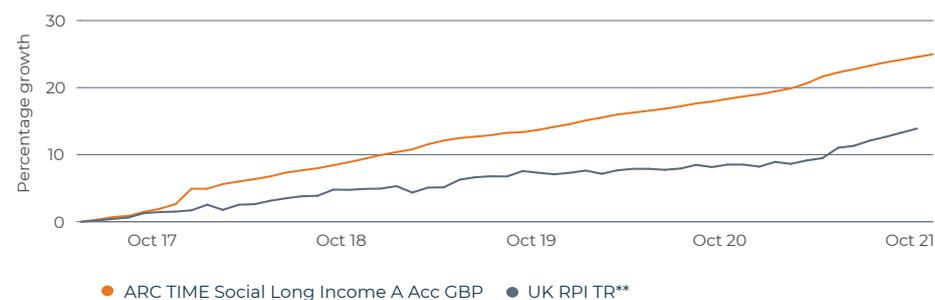

Positive social impact

The fund allows investors to have a positive impact on society, while generating a long-term, attractive, risk-adjusted return.

Featured asset - Barchester Healthcare

TIME:Social Long Income completed on the Fund's first elderly care home in February 2021. The property is purpose-built and is let to Barchester Healthcare on a 35-year term.

The lease contains annual rent reviews linked to RPI and is designed specifically to support people living with dementia.

Fund manager commentary

Fund commentary

TIME:Social Long Income has continued to maintain an impressive performance against the IA UK Direct Property sector, outperforming all other funds in the sector over the three-year period to the end of October 2021.

The Fund completed on a purpose-built care home in East Sussex for £21.95 million in October 2021. The care home is let to Care UK (one of the leading care home providers in the UK) with a remaining lease term of c23 years. The lease contains annual rent reviews linked to RPI (0% floor and a 5% cap). The Fund continues to assess opportunities and will look to deploy capital to further diversify the portfolio.

The property portfolio is seeing capital appreciation which is being driven from various sectors where the Fund has exposure, including its largest exposure in the care home sector. The property portfolio of the Fund will next be valued by the independent valuer as at 30 November 2021.

Fund performance

The value of the Fund's shares increased by 0.39% for the month of October 2021.

The Fund has maintained positive monthly returns throughout the past year and throughout the COVID-19 period, with the resilience of the portfolio and social infrastructure sector being demonstrated in these difficult times. Given the Fund's strategy and nature of the assets in which it is invested, we believe the Fund is well placed to continue to deliver positive performance.

The Fund continues to receive net subscriptions, and cash levels are currently at c10% of its prevailing net assets.

The Fund's income for the quarter to 30 September 2021 of 1.09% (based on the Class A Gross Accumulation shares) will be paid at the end of December 2021. The Fund's performance over the year to 31 October 2021 has been 5.44% (based on the Class A Gross Accumulation shares), comprising an income return of 4.13% and a capital gain of 1.31%.

FCA consultation on open-ended property fund structures

The Financial Conduct Authority (FCA) has proposed a consultation on open-ended property funds <https://www.fca.org.uk/news/pressreleases/fca-consults-newrules-improveopenendedpropertyfundstructures>. The FCA has proposed that longer redemption periods would benefit investors. We submitted our response to the FCA as part of this consultation process, which closed on 3 November 2020.

On 7 May 2021, the FCA released a feedback statement on their consultation. The FCA stated that the proposed changes for authorised open-ended property funds would not be implemented before mid-2023 at the earliest. We, therefore, await the announcement of their changes, if any.

We are pleased that the FCA has listened constructively to the industry and stakeholders regarding the real challenges created by the introduction of mandatory redemption notice periods. In particular, the FCA confirmed they are aiming to ensure that the distribution chain operates effectively and allows investors to continue to hold an important asset class enabling them to continue to benefit from direct property within an investment portfolio.

For our full response to their statement, please visit our [website](#).

HMRC consultation on ISA investment in open-ended property funds

HMRC has recognised that the FCA's consultation proposals may run contrary to ISA legislation, which requires ISA investors to be able to access their funds or transfer them to another ISA within 30 days of making an instruction to their ISA manager. Under current legislation, such property funds would no longer be ISA eligible investments.

In order to mitigate the impact on ISA holders if the FCA's consultation proposals are introduced, HMRC is considering whether to allow existing ISA investments in open-ended property funds to remain within the ISA, while potentially prohibiting 'new' ISA investments in such funds.

The HMRC consultation closed on 13 December 2020, with its findings expected to be published this year.

About TIME

TIME Investments is a specialist investment manager focused on delivering long-term investments that seek consistent and attractive risk-adjusted returns. We take a deliberately defensive approach investing in asset-backed and income generating assets, predominantly through infrastructure, real estate and lending. TIME Investments has a long track record in fund management with 30 investment specialists within the renewables, lending and property teams.

Outlook

We are pleased to report that the Fund has continued to outperform its traditional commercial property OEIC peers. Since the Fund was launched it has been managed with the focus on lower capital volatility and income security through investing in the social infrastructure sector. This along with the specific features of long income (including the high Weighted Average Lease Term married with tenant quality, sector sustainability and quality of the real estate) are the main reasons for this outperformance.

The WALT of the portfolio is 23 years which gives significantly greater visibility of income than in traditional commercial property, and hence the name, long income. With concerns around increased levels of inflation, long income property, where rent reviews are typically linked to an inflation index or contain fixed uplifts, offers investors an attractive option. Within the portfolio, 86% of the rent reviews are linked to an inflation index or have a fixed percentage growth.

Whilst economic uncertainty remains, there are positive signs. The Fund and its property portfolio is well positioned and we anticipate the positive performance in property values to continue, with a total return in excess of 4% per annum.

We recommend that investors wishing to subscribe into or redeem from the Fund review our [Q&A](#) before doing so.
